

Academic Positions

- 2019 - **Assistant Professor**
Department of Epidemiology
Mailman School of Public Health
Columbia University, New York, NY
- 2017 - 2019 **Assistant Professor**
Emergency Medicine, School of Medicine
Graduate Group in Epidemiology
Graduate Group in Public Health Sciences
University of California, Davis

Education

- 2016 - 2017 **Postdoctoral Scholar**
Epidemiology, School of Public Health
University of California, Berkeley
K99, National Institute on Drug Abuse
- 2014 - 2016 **Health and Society Scholar**
Robert Wood Johnson Foundation
University of California, San Francisco
University of California, Berkeley
Advisors: Jennifer Ahern, Maria Glymour, Mark van der Laan
- 2014 **Postdoctoral Fellow**
Department of Mental Health
Johns Hopkins School of Public Health, Baltimore, MD
Drug Dependence and Epidemiology
Advisor: Elizabeth Stuart
- 2010-2014 **Ph.D. Epidemiology**
Johns Hopkins University, Bloomberg School of Public Health
Concentration in Methods
Advisor: Thomas Glass
Thesis: Mental health in context: effect heterogeneity and mechanism in the relationship between neighborhood disadvantage and adolescent depression and anxiety.
- 2012-2013 **M.H.S. Biostatistics**
Johns Hopkins University, Bloomberg School of Public Health
Advisor: Elizabeth Stuart
Thesis: Implementation of methods to estimate population marginal treatment effects in the presence of non-randomized treatment assignment and informative selection from a population-based sample.
- 2007-2008 **M.P.H.**
Johns Hopkins University, Bloomberg School of Public Health
Capstone: Evaluation design for a study using community health workers to improve breastfeeding rates among adolescent African American women in East Baltimore.

2006 Graduate course in biostatistics
University of Pennsylvania

2001-2005 **B.S. Biochemistry**
University of Michigan
Highest honors
Thesis: Actin-regulatory proteins $p116^{RIP}$ and *LIMK2* interact with POSH.

Grants and Fellowships

Current

Mechanisms linking neighborhood poverty to problematic adolescent drug use (Rudolph)
Role on Project: Principal Investigator
Dates: March 15, 2018 – December 31, 2020
Funding Agency: National Institute on Drug Abuse; R00DA042127

Funding: \$745,872

Description: The major goals of this research are to: 1) advance understanding of how neighborhood and school act together to influence problematic drug use among adolescents, including how these mechanisms differ across adolescent subgroups and places, and 2) develop a flexible statistical method to predict intervention mechanism effects in new target populations, taking into account population composition.

The health and social consequences of national marijuana legalization (Cerde)

Role on Project: Co-Investigator

Dates: July 1, 2016 – June 30, 2020

Funding Agency: National Institute on Drug Abuse; R01DA040924

Funding: \$260,182

Description: This is a pre/post commercial and non-commercialization (regulation) of marijuana that compares changes in marijuana use, use of other drugs, and increased fatalities between intervention and control sites.

Antimicrobial Resistant E.coli before and after CA SB 27(ARES): A natural experiment (Tartoff)

Role on Project: Co-Investigator

Dates: May 9, 2017 – April 30, 2022

Funding Agency: National Institute of Environmental Health Sciences; R01AI130066

Funding: \$109,388

Description: The major goal of this project is to estimate the extent to which a statewide policy to reduce antibiotic use in livestock production affects antibiotic-resistant infections in humans. My responsibility will be to advise on the statistical design and analysis for one of the aims.

Preventing firearm violence: An evaluation of urban blight removal in high risk communities (Kagawa)

Role on Project: Co-Investigator

Dates: January 1, 2018 – December 31, 2019

Funding Agency: National Institute of Justice; 2017-IJ-CX-0021

Funding: \$351,523

Description: Longitudinal, observational study to identify the impact that demolishing or rehabilitating vacant and decaying buildings in urban areas has on firearm violence and other crimes and to examine the heterogeneity of effects by neighborhood and property type in order to estimate the context in which these property interventions may have the most impact on firearm violence and other crimes.

Causal mediation methods for studying mechanisms in mental health (Stuart)

Role on Project: Consultant

Dates: April 1, 2018 – March 31, 2022

Funding Agency: National Institute of Mental Health; R01MH115487

Funding: \$32,000

Description: The goals of the proposed project are to extend causal mediation methods to common data structures in mental health research, and to disseminate the existing and new methods to

mental health researchers, including providing guidance to facilitate adoption and appropriate use.

Examining the synergistic effects of cannabis and prescription opioid policies on chronic pain, opioid prescribing, and opioid overdose (Cerdeira, Martins)

Role on Project: Co-Investigator, Site Principal Investigator

Dates: January 1, 2019 – November 30, 2023

Funding Agency: National Institute on Drug Abuse

Funding: \$94,847

Description: The goal of this project is to examine the extent to which various measures of opioid use, abuse, overdose, and disorders are affected by the enactment of more restrictive prescription opioid policies and less restrictive cannabis laws.

Pending

Community violence and disparities in maternal and infant health: impacts and mechanisms (Ahern)

Role on Project: Co-Investigator

Dates: July 1, 2018 – June 30, 2023

Funding Agency: National Institute of Child Health and Human Development

Funding: \$3,728,613 (total)

Description: The major goal of this project is to determine the effects of chronic and acute aspects of community violence on maternal and infant health and racial/ethnic health disparities, and to identify underlying psychological, behavioral and biological mechanisms of effect using statewide data for California on over 6 million mothers and infants over more than a decade.

Estimating the link between neighborhood context and substance use-related emergency department visits (Barry, Pollack)

Role on Project: Co-Investigator

Dates: April 1, 2020 – March 31, 2024

Funding Agency: National Institute on Drug Abuse

Funding: \$251,972

Description: The goal of this project is to estimate causal effects of receipt of a housing voucher to move to a lower poverty neighborhood on long-term substance-use related ED services and examine mediators and effect modifiers.

Multigenerational air pollution exposure and adverse birth outcomes (Pearl)

Role on Project: Co-Investigator

Dates: April 1, 2020 – March 31, 2022

Funding Agency: National Institute of Environmental Health Sciences

Funding: \$401,581 (total)

Description: The goal of this project is to understand air pollution exposures across multiple generations of pregnancies and their effects on adverse birth outcomes. Findings will inform the design of interventions addressing higher burdens of exposure and disparities in adverse birth outcomes in

communities of color and lower socioeconomic status.

Completed Fellowships and Grants

Mechanisms underlying differential effects of neighborhood poverty on problematic adolescent drug use (Rudolph)

Role on Project: Principal Investigator

Dates: August 1, 2016 – November 30, 2017

Funding Agency: National Institute on Drug Abuse; K99DA042127

Funding: \$308,828

Description: The major goals of this research are to: 1) advance understanding of how neighborhood and school act together to influence problematic drug use among adolescents, including how these mechanisms differ across adolescent subgroups and places, and 2) develop a flexible statistical method to predict intervention mechanism effects in new target populations, taking into account population composition.

Robert Wood Johnson Foundation Health & Society Scholar

Dates: September 1, 2014 – July 31, 2016

Funding Agency: Robert Wood Johnson Foundation

Site: University of California, San Francisco and University of California, Berkeley

Drug Dependence Epidemiology Training Fellow

Dates: February 16, 2014 – August 31, 2014

Funding Agency: National Institute on Drug Abuse

Site: Johns Hopkins University, Bloomberg School of Public Health, Department of Mental Health

Sommer Scholar

Dates: September 1, 2012 – February 15, 2014

Funding Agency: Johns Hopkins University, Bloomberg School of Public Health

Site: Johns Hopkins University, Bloomberg School of Public Health, Department of Epidemiology

Intramural Research Training Award Fellow

Dates: September 1, 2010 – August 31, 2012

Funding Agency: National Institute of Mental Health

Site: Johns Hopkins University, Bloomberg School of Public Health, Department of Epidemiology

Awards

2018	Lilienfeld Postdoctoral Paper Award—Society for Epidemiologic Research
2017	Faculty Scholar, Center for the Advancement of Multicultural Perspectives on Science, University of California, Davis
2014	Student Paper Award—American Statistical Association, Social Statistics/Government/ Survey Research Methods Sections
2008	Delta Omega Honor Society—Johns Hopkins School of Public Health

Presentations and Posters (first author only)

- 2019 Rudolph KE, Levy J, van der Laan MJ. Transporting stochastic direct and indirect effects to new populations. Poster presentation at the Society for Epidemiologic Research Conference, Minneapolis, MN.
- 2018 Rudolph KE, Sofrygin O, van der Laan MJ Estimation of direct effects in an instrumental variable setting: a proposed method and example estimating effects of a randomized housing trial on adolescent substance use. Oral presentation at the Society for Epidemiologic Research Conference, Baltimore, MD.
- 2017 Rudolph KE, Sofrygin O, van der Laan MJ. Robust and flexible estimation of stochastic mediation effects: a proposed method and example in a randomized trial setting. Oral presentation at the Society for Epidemiologic Research Conference, Seattle, WA.
- 2016 Rudolph KE. Understanding site differences in the effects of the Moving to Opportunity Study on adolescent outcomes. Oral presentation at the Joint Statistical Meetings, Chicago, IL.
- 2016 Rudolph, KE. Contextual drivers of firearm violence. Oral presentation at the Society for Epidemiologic Research Conference, Miami, FL.
- 2016 Rudolph KE. Understanding site differences in the effects of the Moving to Opportunity Study on adolescent outcomes. Oral presentation at the Robert Wood Johnson Foundation Health & Society Scholars Conference, New Orleans, LA.
- 2015 Rudolph KE. Transportability in Encouragement-Design Interventions. Oral presentation at the Robert Wood Johnson Foundation Health & Society Scholars Conference, Chapel Hill, NC.
- 2015 Rudolph KE, van der Laan MJ. Transportability in Encouragement-Design Interventions. Poster at the Society for Prevention Research Conference, Washington, DC.
- 2015 Rudolph KE, Sanchez BN, Stuart EA, Greenberg B, Fujishiro K, Wand GS, Shrager S, Seeman T, Diez Roux AV, Golden SH. Association between job strain and aspects of the cortisol diurnal cycle: the Multi-Ethnic Study of Atherosclerosis. Poster at the Society for Epidemiologic Research Conference, Denver, CO.
- 2014 Rudolph KE, Diaz I, Rosenblum M, Stuart EA. Estimating population treatment effects from a survey sub-sample. Oral presentation as part of topic-contributed session Fresh Perspectives in Causal Inference II at the Joint Statistical Meetings, Boston, MA.
- 2013 Rudolph KE, Wand GS, Stuart EA, Glass TA, Marques AH, Duncko R, Merikangas KR. The association between cortisol characteristics and neighborhood disadvantage in a population-based sample of U.S. adolescents. Poster at the Society for Epidemiologic Research Conference, Boston, MA.
- 2012 Rudolph KE, Stuart EA, Glass TA, Merikangas, KR. Using propensity score subclassification to examine the association between neighborhood disadvantage and adolescent mental health. Poster at the Society for Epidemiologic Research Conference, Minneapolis, MN.
- 2012 Rudolph KE, Glass TA, Schwartz BS. Neighborhood psychosocial hazards and binge drinking among older adults. Poster at the Society for Epidemiologic Research Conference, Minneapolis, MN.
- 2010 Rudolph K, Gabor V, Morgan R. Environmental supports and barriers to physical activity in D.C. childcare centers. Oral presentation at the Annual American Public Health Association Conference, Denver, CO.

Invited Talks

- 2019 Firearm violence and policy evidence, Pediatric Grand Rounds, UCSF Zuckerberg San Francisco General Hospital, San Francisco, CA.
- 2019 Improving prediction of intervention effects across populations, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD.
- 2018 Bringing Context into Focus—Transportability Framework on the Effect of Housing, University of California, San Francisco, Symposium: Closing the Gap between Rigor and Relevance: Methodological Opportunities for Implementation Science to Address the HIV Epidemic, San Francisco, CA.
- 2018 Improving prediction of intervention effects across populations, Columbia Mailman School of Public Health, New York, NY.
- 2018 Improving prediction of intervention effects across populations, New York University School of Medicine, New York, NY.
- 2018 Improving prediction of intervention effects across populations, University of California, San Francisco, Department of Epidemiology and Biostatistics, San Francisco, CA.
- 2018 Firearm violence and policy evidence, Grand Rounds, UCSF Benioff Children’s Hospital, Oakland, CA.
- 2018 Improving prediction of intervention effects across populations, University of California, Berkeley School of Public Health, Berkeley, CA.
- 2017 Better neighborhoods are harmful? Examining effect heterogeneity and mediation to understand puzzling results of the Moving to Opportunity Experiment, University of California, Davis, Graduate Group in Epidemiology, Davis, CA.
- 2017 Better neighborhoods are harmful? Examining effect heterogeneity and mediation to understand puzzling results of the Moving to Opportunity Experiment, University of California, San Francisco, NIDA T32 Training Program in Substance Abuse Treatment and Services Research, San Francisco, CA.
- 2015 Guns, cities, and statistics: Accurate statistical methods to inform policies to prevent violence and risk behaviors, University of California, Davis, School of Medicine, Department of Emergency Medicine, Sacramento, CA.
- 2014 Neighborhood Disadvantage and Cortisol, Drexel School of Public Health, Department of Epidemiology and Biostatistics, Philadelphia, PA.

Campus Talks

- 2017 Causal Mediation Analysis, University of California, Berkeley School of Public Health, Causal Inference II Course, Berkeley, CA.
- 2016 Synthetic control group approach for estimating policy effects, University of California, San Francisco, Methods for Evaluating Social Policy Effects on Health, San Francisco, CA.

Professional Experience

Teaching Experience

- | | |
|-----------|--|
| 2019 | Instructor - Critical Thinking in Epidemiology
Epidemiology Graduate Group
University of California, Davis, Davis, CA |
| 2017 | Instructor - Epidemiology Journal Club for Doctoral Students
Division of Epidemiology
University of California, Berkeley School of Public Health, Berkeley, CA |
| 2013 | Teaching assistant - Spatial Analysis and GIS I
Department of Biostatistics
Johns Hopkins School of Public Health, Baltimore, MD |
| 2013 | Teaching assistant - Spatial Analysis and GIS II
Department of Biostatistics
Johns Hopkins School of Public Health, Baltimore, MD |
| 2011-2013 | Teaching assistant - Fundamentals of Epidemiology and Biostatistics
Department of Epidemiology
Johns Hopkins School of Public Health, Baltimore, MD |
| 2012 | Teaching assistant - Methodological Challenges in Epidemiological Research
Department of Epidemiology
Johns Hopkins School of Public Health, Baltimore, MD |
| 2012 | Teaching assistant - Doctoral Seminar in Epidemiology
Department of Epidemiology
Johns Hopkins School of Public Health, Baltimore, MD |

Non-Academic

- 09/2010-12/2010 **Consultant**
Altarum Institute, Washington, DC
Designed program evaluations for the State of Michigan's Communities Putting Prevention to Work grant programs.
Conducted quantitative data analysis for several CDC-funded projects, including ACHIEVE and the State of Michigan's School Nutrition Standards grant program.
- 06/2008-08/2010 **Policy Associate**
Altarum Institute, Washington, DC
Project Management: Managed program evaluation projects contracted by the Health Resources and Services Administration (HRSA) of HHS.
Evaluation Design: Designed program evaluations for the Maternal and Child Health Bureaus Early Childhood Comprehensive Systems Initiative, Texas' Medicaid case management program, HRSA's Bureau of Health Professions' minority health professions grant program, and Michigan's Building Healthy Communities grant program.
Qualitative data analysis: Analyzed data obtained from focus groups, in-depth interviews, and data abstraction using NVivo qualitative analysis software.
Quantitative data analysis: Led teams in analysis of primary and secondary data using STATA and SAS statistical software.
Report writing: Co-authored several reports to HHS' Office of Women's Health, HRSA's Bureau of Health Professions and Bureau of Healthcare Systems, and the Maternal and Child Health Bureau.
- 08/2007-01/2008 **Intern**
Howard County Health Department, Columbia, MD
Developed policies for health care access program to provide affordable, comprehensive health care coverage for all Howard County residents.
- 01/2008 **Field Worker**
Johns Hopkins Center for American Indian Health, Albuquerque, NM
Field work as a Family Health Liaison for a teen mother health behavior intervention on Navajo and Apache reservations.
- 06/2005-06/2007 **Staff Scientist**
Merck & Co. Inc., West Point, PA
Supported demonstration and licensing of Varicella manufacturing facility.
Provided technical and biological support for Varicella processing.
Project and People Management: Led project to re-design sterility testing.
